PROFESSIONAL SUMMARY

BICT undergraduate specializing in Software Technology at the University of Sri Jayewardenepura, with a strong interest in Full-Stack and Web & Mobile Application Development. Familiar with Java, JavaScript, TypeScript, React, React Native, Node.js, and MongoDB. Experienced in academic and personal projects involving application development, databases, and APIs. Passionate about building practical software solutions, learning new technologies and seeking an internship to gain industry experience and contribute to real-world projects.

EDUCATION

Bachelor of Information and Communication Technology (Honours) May 2024 – Present
Faculty of Technology, University of Sri Jayewardenepura
Specialization: Software Technology | GPA: 3.67

G.C.E. Advanced Level (A/L) - 3 A Passes 2022 /2023
Rahula College Matara

TECHNICAL SKILLS

- Programming Languages: Java, Python, JavaScript, TypeScript, SQL
- Frontend Development: React, Tailwind CSS, Material UI,
- Backend Development: Node.js, Express.js
- Databases: MongoDB, Firebase, MySQL
- Mobile Development: React Native, Expo
- Tools & Technologies: Git, GitHub, Vite, Socket.IO, Postman, Figma, jira
- Other Skills: REST API Development, JWT Authentication, PDF Processing, OCR
- Soft Skills: Problem-Solving, Teamwork and Collaboration, Quick Learner

SELECTED PROJECTS

Travel Tracker – Mobile Application (Group Project) 2026

- Developed a mobile application using React Native and Expo, with Firebase integration.
- Worked with geolocation and device connectivity technologies, using TypeScript and Zustand.

GitHub: https://github.com/RASHMIKA-LKI/TravelTrack

Smart IoT-Based Color Identification & Safety Assistant System (Group Project) 2026

- Collaborated on an IoT-based safety system designed to help color-blind electricians identify electrical wire colors and detect potential electrical hazards.
- Contributed to mobile application development, including displaying wire identification, safety alerts, and real-time environmental monitoring data.

Project Area: IoT, Mobile Application Development, Embedded Systems

Araliya Scents – Full-Stack Web Application (Group Project) 2026

- Collaborated with a team to develop a full-stack web application using React, Tailwind CSS, Node.js, and Express.js.
- Worked with MongoDB, Supabase, JWT authentication, and API integration to support application functionality.

GitHub: https://github.com/nethara-vidmantha/araliya-scents-frontend
https://github.com/nethara-vidmantha/araliya-scents-backend

StayNest – Accommodation Booking Application(UI/UX Design) 2026

- Designed Low-Fidelity and High-Fidelity UI screens and an interactive prototype using Figma, focusing on usability and seamless navigation.

Behance:https://www.behance.net/gallery/255623253/StayNest-Find-your-next-home-away-from-home

Real-Time Chat Application 2025

- Developed a full-stack chat application with real-time messaging using React, Node.js, Express.js, and Socket.IO.
- Integrated MongoDB, JWT authentication, and password hashing for data management and user authentication.

GitHub: https://github.com/MadushaThathsara/chat_app

Personal Portfolio Website 2024

- Developed a personal portfolio website to showcase technical skills and software development projects.
- Built the website using React and CSS Modules.

GitHub: https://github.com/MadushaThathsara/My_portfolio

GPA Calculator – Academic Performance Tracker (In Progress) 2026

- Developing a browser-based application that extracts academic results from university PDFs using PDF text extraction and OCR.
- Implemented SGPA and CGPA calculations using React and TypeScript.

GitHub: https://github.com/MadushaThathsara/GPA-Calculator

NutriSnap – AI-Powered Nutrition Tracking Application (In Progress) 2026

- Developing a mobile application that uses AI-powered food image analysis to estimate calories and nutritional information.
- Planning to use React Native, Expo, TypeScript, and Google Gemini Flash.

GitHub: https://github.com/MadushaThathsara/GYM

CERTIFICATIONS AND PROFESSIONAL TRAINING

Mastering Advanced Java with Object-Oriented Programming - Udemy	Nov. 13, 2024
Java Programming Course - SITEC	Mar. 16, 2024
